THE 2022 PRIME MINISTER'S PRIZES FOR SCIENCE

Know a scientist, researcher or research-based innovator doing great work?

Nominate them for national recognition!

The Prime Minister's Prizes for Science are Australia's most prestigious awards for outstanding achievements in scientific research, research-based innovation and excellence in science teaching.

Why nominate?

Nominating someone for a Prize is a meaningful acknowledgement of the value you think they contribute to science. Up to \$750,000 in prize money is on offer across five Science Prizes and two Science Teaching Prizes for eligible Australian citizens/permanent residents.

The nomination process is simple.

- 1. Nominate**—provide a 500-word summary of your nominee's achievements, contact details for two supporters and two independent referees.
- 2. Shortlist**—if your nominee is shortlisted, you'll be asked to submit an online application form addressing an assessment criteria.
- 3. Verify**—the independent selection committee will verify your submission.
- 4. Notify**—recipients will be notified and invited to attend the event in October 2022!

The Department of Industry, Science, Energy and Resources is committed to improving the diversity of nominees for the Prizes. We particularly welcome nominations of women, Aboriginal or Torres Strait Islander people, members of the LGBTIQ+ community, and people from regional and remote parts of Australia.

Nominate at business.gov.au/scienceprizes

Nominations close 5:00 pm AEDT 10 February 2022.
