

30 Years of Gravity Research in Australasia: Past Reflections and Future Ambitions

When? Monday 2nd and Tuesday 3rd September, 2024

Where? Australian National University, Canberra, Australia

Why? To celebrate 30 years of the Australasian Society for General Relativity and Gravitation (ASGRG)

Themes:

Past Reflections

The last 30 years; how Australasia has contributed to research in general relativity and gravitation.

Future Ambitions

The next 30 years; opportunities for continued success in general relativity and gravitational research in Australasia
