

WOLFRAM AUSTRALIA USER CONFERENCE 2026

Macquarie University | 5 June

This event brings together the best and brightest technological innovators, researchers and educators from multiple disciplines across Australia to showcase how to unify workflows with computation to deliver quicker and smarter results. Through presentations, roundtables and informal discussions, attendees will have an opportunity to make new professional connections, discuss, brainstorm and problem solve with peers and computational experts in their local area.

121 Lecture Theatre
1 Management Drive
Macquarie University
