

Are you a researcher in need of tools to obtain essential data for your project?

Are you a young scientist with experimental research to implement?

Have you got a research question you want to investigate but lack the right infrastructure and know-how?

Are you seeking physical or remote access to a cutting-edge laboratory in your field of study?

---

Participate in the call, submit your proposal, and be supported by researchers from the ILGE community in your project.

It will be an opportunity to use the latest generation infrastructures and expand your network of contacts.

# OPEN SCIENCE FOR OPEN MINDS

ILGE, the network of laboratories and infrastructures available to the geoscience community

## OUR FIELDS OF KNOWLEDGE

- 01** ENVIRONMENT AND  
PALEOCLIMATOLOGY
- 02** DYNAMICS OF FAULTS AND  
VOLCANIC ERUPTIONS
- 03** PHYSICS, PETROPHYSICS, CHEMISTRY OF  
SEDIMENTS, ROCKS, MINERALS
- 04** GEOCHRONOLOGY
- 05** PALEOMAGNETISM
- 06** ANALOGUE MODELING OF  
GEOLOGICAL PROCESSES
- 07** PETROLOGY
- 08** GEOCHEMISTRY

## THE ILGE NETWORK

The ILGE network is a research infrastructure that makes 37 innovative instruments available for the study of the Solid Earth.

It involves 28 multidisciplinary laboratories, 102 technicians and researchers from 4 Italian institutions of excellence.

## WE OFFER YOU THE UNIQUE OPPORTUNITY TO JOIN OUR RESEARCH COMMUNITY

### THE PROGRAMME INCLUDES:

- technical and scientific support;
- administrative and logistic support;
- access to the products, services and facilities offered in the ILGE catalogue;
- hands-on training needed to access the facilities;
- travel expenses (different budgets for intra EU, extra EU, national);
- subsistence (within a daily maximum);
- remote access with coverage of sample shipping costs.
