This advertisement has been lodged by Haneco Lighting Australia. The provision of this information does not constitute any representation by the University as to the accuracy of the information provided by the organisation or any endorsement of the organisation by the University. The University is passing on information which the Careers Centre feels may assist you in your job search. You should make your own enquiries to verify any of the information given.

Haneco Lighting Australia specialises in LED lighting solutions and we are at the forefront of lighting technology in all industry sectors. We work closely with our partners throughout Australia and Asia to deliver outstanding lighting products for commercial, residential, and industrial applications.

Due to rapid business growth in 2021, we are seeking a dynamic individual with high level technical ability matched with flair and passion to join our design team. The ideal applicant will be an individual who enjoys a fast-paced working environment, with an electronic and illumination background and thrives under pressure.

Person Specification

Excellent communication skills in written and verbal English and Mandarin.
Team-orientated yet able to work independently under minimal supervision.
Proactive, flexible, takes ownership and strives to deliver.

Electronic and illumination background
Product development engineer assistant
Good skills on PPT and Excel
Graphic design skills would be beneficial.

Residency Requirements

All candidates considered including international students
